- Use appropriate tools and hardware for assembly

### **Common Questions:**

Q: How much space do I need for a swing? A: Allow at least 6 feet of clearance around the swing for safety.

Q: Can I install the swing on any surface? A: The swing should be installed on a soft surface like grass or mulch to reduce injury risk in case of falls.

### **Safety Standards:**

Look for swings that meet ASTM or CPSC safety standards for outdoor play equipment.

### **Maintenance Schedule:**

Perform a monthly check for signs of wear and tear, especially on ropes and fastenings.

Clean the swing regularly to prevent dirt buildup.

### **Warranty Information:**

Check the warranty for coverage details and duration. A longer warranty can indicate better quality and durability.
